

Photometric Layout Request Form

Please be prepared to provide CAD drawing files or PDFs of the layout plans. Scaled layout preferred for accurate calculations. If available, indicate proposed locations, property lines and if there are existing light fixtures. If no plans are available, specific dimensions and details will be required.

Sales Representative Name (or one will be assigned) _____

Distributor Name (or one will be assigned) _____

Contractor/Coordinator Name _____

Email _____ Phone _____

Project ID _____ Project Name _____

Project Location/Phases _____

Expected Construction Date _____ Layout Required Date _____
Depending on information and files provided, allow one week minimum turnaround time.

Minimum/average/maximum foot-candle locations and requirements

Otherwise layout will be designed to IESNA lighting standards

Fixture, Pole and Bracket Arm model numbers, light source and maximum wattage (if known), pole height or height to light source and arm length

Recommendations will be provided if needed, but we will need a project budget to keep the design within those price limits.
